Dear Sirs:

11112191 There are possibly no two men  
alive in America who have brought as  
much joy to my life the past  
few years as RFK and Allen Dulles.  
Yet, recalling a time when I told you  
both in highest admiration, I look  
to those days, from which I feel  
compelled to direct the following  
information to your attention:

SECRET

SECRET

The following may have no bearing  
to the tragic assassination of  
Pres. Kennedy, but I never the less  
submit it for your study & considera-  
tion

1. Writer knew Jack Ruby - commented  
to friend "in our Shaw Hotel room"
2. Writer believes Jack Ruby was  
meeting Syndicate members in  
San Diego between last months  
of 1961 and early months of 1962.  
The meeting of the Synd. members  
was at "The Brasserie" a bar-restaurant  
owned by two Hungarian  
members. Was used as a Syndicate  
front.
3. Jack Ruby is known as a "forge-  
man" in these operations, and  
not only is it for him to have had  
a hand in stimulating the assass-  
ination of JFK by LHO, but likewise  
pre-arranged the attitudes for the  
assass which was ordered from  
the East Coast. LHO was a  
"sitting duck" to be used for the  
actual killing of Pres. Kennedy.  
Writer believes that LHO was  
to have met his accomplice  
in the theatre, have been highly  
paid & escaped to Mex or Cuba  
If syndicate had stimulated it right  
of assass LHO would have been killed  
w/in a few hours of JFK's death  
anyway

4. Write down strong feeling that Jack Ruby ~~was~~ was the "finger man" who set up the murder of Nick deSola in San Francisco.

"Please know that I deeply regret that so much action was taken against my mail and other outlets while in San Diego 1961, for as I then suggested in my communication, I could have indeed forwarded some very strong evidence against the welfare of our people and nation which emanated from near the border.

I prefer ~~not~~ to sign my name, rather just enclosing one of my old cards to acknowledge the sender of this letter. As you know from my past letters, I have very little confidence in the local FBI office maintaining silence regarding my name, please do acknowledge this letter to them too.

SECRET

3. No mention of CIA in the report and <sup>only</sup> 2 pieces of info originating w/ CI. 1) from regional 10/10/63 report which told FBI that LHO had been in Mexi - the passage read:

"In October 1963 the FBI received reports that a person possibly identical w/ Lee Harvey Oswald had been in Mex City during the latter part of Sept. & the first part of Oct 63, where he was in touch w/ Sov. Embassy to inquire if a response had been received from Washington. It was later determined that this referred to his request for a visa to enter the Soviet Union.

"I did not feel that the statement if passed to the investigating comm'n would breach our operational security. The other item based mainly on our information dealt w/ the statements of the Mex'n consular empe who had talked to LHO on his visit to Mex City. Much of this info has been published, & it is not sensitive

11112195

4. Several relevant items which CIA gave FBI like travel dates on LHO family hadn't appear at all. But omission doesn't impair the report

SECRET

SECRET

5. Startling new revelation is that LHO had been person who friended at Gen'l Edwin Walker last Spring. Planned govt on 3 Dec 63 when Marina told FBI of incident

6. Of interest to CIA + worthy of much detailed study are facts revealed about LHO's stay in S.U. + dealings w/ the "MVD" . . . The depth of this material is such that it will require detailed analysis, but at first reading, it does not support anything that the Soviets got him to shoot JFK.

"One interesting item is a handwritten report on a meeting ~~which~~ he had w/ a U.S. Consul in the U.S. Embassy in Moscow shortly after he arrived there in 1959. It was apparently written right after the interview and could well have been a raw report for the MVD.

7. Included w/oto are photoreproductions of the Soviet Consulate file on the Oswald family which was turned over by the Soviet Embassy, etc. It shows that Marina had been long trying to get back to USSR + that LHO finally decided to go back himself.

De Mohrenscheldt 201 is a very meagre file. "The FBI should be encouraged to keep us advised on further developments respecting him and we should check him further through CIA sources for our own purposes.

13 April 64 memo for: DDP

Subj: Discussion w/ AWD  
on LHO case

1. At the instructions of the DDP, I visited Mr. Dull on 11 April to discuss w/ him certain ?'s which Mr. Dull feels the WC may pose to the CIA. Mr. Dull explained that while the WC wanted to clarify certain aspects of the Oswald case in which a response from CIA seemed necessary, it was not sure how the question should be posed nor how CIA should respond. Mr. Dull hoped that our discussion would enable him to advise the Com'n on this matter. He first raised the allegation that Oswald was a CIA agent. He mentioned two sources for the allegation
  - 1) Margulite +
  - 2) Mark Lane

2. Mr. Dull then suggested that the response to the ? could be in the form of sworn testimony before the WC by a senior CIA official or a letter or affidavit. He recalled the Director of FBI had replied by letter to a similar question.

11112202

~~SECRET~~

~~SECRET~~

3. The next ? concerned the possibility of LHO's having been a Soviet agent. Dull suggested that the WC's ? on this matter be phrased somewhat as follows . . . .

4. —  
5. — After concerning these ?'s of direct interest to CIA, Mr. Dull mentioned other issues which concerned the Comm'n. He remarked that members of the WC could not understand why CIA had not begun an investigation of LHO as soon as it received word that he had defected. I noted that this ? had been discussed w/ Mr. Rankin & his staff ~~and~~ there seemed to be considerable understanding of the practical circumstances which made it impossible for CIA to undertake such investigation inside the USSR. I expressed the hope that it would not be necessary for CIA to place matters of this sort in the public record. Mr. Dull agreed.

11112203

6. —  
7. Dull and appointed assistance attended him to + would discuss framing of ?'s for CIA w/ Rankin on Monday 13 April.

8. At no time during these discussions did Dull bring up Nosenko & Murphy, didn't other info.

Memo for: DDP

Subj: Discussion w/ Dulles re  
Nosenko info on LHO

1. Mr. Dulles, w/ whom I spoke today recalled his earlier conversation w/ you on this subject and said that there were still some members of the Comm'n who were concerned lest they suppress the NOSENKO info now only to have it surface at a future date. They expressed concern that this could possibly prejudice the entire WC report. I told Mr. Dulles that this concern was understandable but that we still felt the best course by far would be to omit any reference to the NOSENKO info in the final report. While it is conceivable that Nosenko might someday be in a position to claim that he provided info on the JFK assass. I said that the diff. between Nosenko's situation & that of other bona fide defectors was such that it would be less likely that Nosenko would be allowed to surface in this way. I noted that if the Nosenko information were included as is

11112204

~~SECRET~~

~~SECRET~~

in the final commission report and then later the facts of Nosenko's agent mission became public knowledge, this could have perhaps an even greater negative effect on the standing of the Commission report. The only way for the WC to avoid this and still use the info.

would be for them to indicate that doubt existed regarding the source of the info. We would be opposed to this because it would signal to Nosenko's principals something of how we viewed this case and could also bring about renewed press and public interest in Nosenko.

2. Mr. Dulles and I then exchanged views on the possibility of finding language which would allude to the existence of the, unverified info on the Oswald case. This language would permit the WC to say if challenged in the future on this issue that it had taken the Nosenko

11112205

info into consideration in the final report but at the same time it would not be presented in a manner which would be at variance w/ the inst. operat'l consideration we have raised.

~~SECRET~~

~~SECRET~~

3. It was agreed an effort would be made to find such language as Mr. Dulle is again unsuccessful in persuading his colleagues to eliminate any reference to the Rosenbergs from the report. To attempt this, however, we would have to know precisely in what context the WC intended to make use of the Rosenbergs. This, Mr. Dulle will have to determine from Mr. Rankin. He will do this as soon as possible. He knows that I am leaving the week and therefore, will contact you as soon as he has the info. He needs from Mr. Rankin.
4. I have briefed Pete Bagley on the latest development & since he & Lee Wigren in my shop are fully cognizant of all the problems involved, they can work out language for your approval which hopefully will be satisfactory. Mr. Bagley knows Mr. Dulle & would be the most suitable person to work w/ him directly if this is indicated.

2. AEKADKE remains a special case because of the manner in which Chuy, CI presented the problem to the WC. AEKADKE was described as a freelance, not under our control, who would work immunes from testimony under oath, etc. Mr. Dull & Mr. Rankin found this unacceptable & as a result none of the material from the WC pertaining to LHO's stay in the USSR has been ~~shown~~ shown to AEKADKE. Subj: Uzenko info in Warren  
Comm'n Report

Bazley of CIA

Date: 27 July 64

Place: WC office

1. Discussion was called by Rankin to discuss proposed drafts for inclusion or non-inclusion of Uzenko's info in the report of the WC. Slawson had prepared a short memo w/ 3 attachments offering alternative drafts. —
2. Of these drafts — (details what each draft says)
3. The CIA reps thought it would be undesirable to include any Uzenko info in the report and after some discussion, there was general agreement on this view. The circumstances which contributed to this conclusion are summarized below:
  - a. Uzenko is a KGB plant and may be publicly exposed as such some time after the appearance of the WC's report. CIA cannot at this time

11112209

however, evaluate the accuracy of what Nosenko has reported on the Oswald case, and the significance of his having reported it.

b. Even w/out public discrediting of the source, specific aspects of Nosenko's information are likely to lead to questions and doubts on the part of perceptive readers.

c. Once Nosenko is exposed as a KGB plant, there will arise the danger that his information will be misread by the press and public, leading to conclusions that the USSR did direct the assass.

d. The agency's greatest contribution to the resolution of the question at hand would be to break Nosenko and get the full story of how and why he was told to tell the story he did about Oswald. While we have no certainty that we can ever do this, if we are to succeed we need time and must in the meantime avoid creating pressure which might force us to release Nosenko to the public domain. There, articulate and plausible, he would unquestionably be able to establish himself

2 beyond hope of dislodging, since the story cannot easily be pierced even by trained specialists, much less by private citizens (however intelligent). The release of the fact that Rosenko knows specifically about the Oswald case would, of course, create such pressure, and no hedging or source description could protect his identity.

3 4. Rosenko felt that some mention of Rosenko might be inevitable, at least when after WC report published press would ask WC about him & what he contributed. Helms suggested that CIA could provide a group of Soviet intell defectors to list to WC & WC could then report that "11112211" defectors" in gen'l & w/out naming Rosenko had given info. CIA said it found Commission draft #4 acceptable in this regard.

Re: memo of 29 March 64 by Dooley

In the above memo I mentioned several items warranting add'l FBI action. Some of these have since been reported on by that Agency. On 29 April 64 I spoke to Pappe in presence of Birch O'neal C/CI/SIS

asked Pappe for further details w/ respect to #1's 2, 3, 4, 5 & 11 given memo. These pertain to mysterious letters sent to LHO & RFK; extent of LHO's photographic talents prior to empl. at J-C-S; the missing Gilberto Lopez; the phony draft cards in LHO's possession; and allegation that Jack Ruby had interest in Miami & Havana gambling houses in early 50's - and arranged illegal flights to Cuba for the Castro organization - Ruby allegedly part owner of 2 planes.

Pappe said it sounded like nonsense. Dooley replied that since FBI used an informant symbol for the info, <sup>it</sup> had no way of determining veracity of the source

Papert expressed doubt that
